Sort your waste responsibly

Sorting your waste correctly isn't always easy – but it makes a big difference.
When waste is sorted properly, most of it can be recycled instead of being incinerated.
That's good for both the environment and the climate.

Vourtyard enclosure:

- Food waste
- Plastic and beverage cartons
- Cardboard and paper
- Batteries
- General household waste

Courtyard shed:

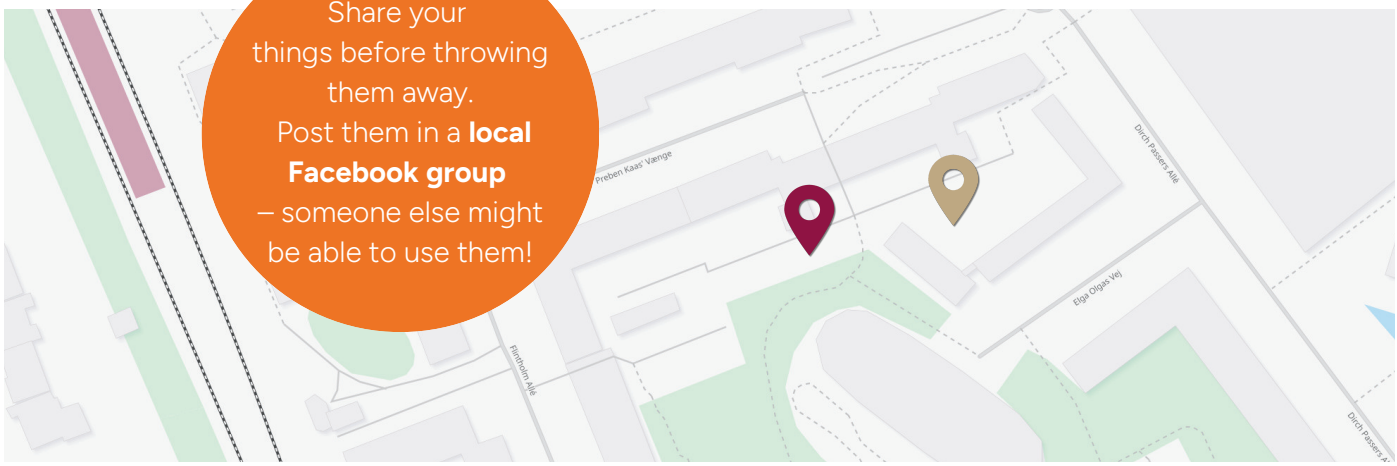

- Food waste
- Plastic and beverage cartons
- Cardboard and paper
- Metal
- General household waste
- Textiles
- Bulky household items and mattresses
- Indoor wood (max. 1.5 metres)
- Electronics and batteries
- Hazardous waste

Remember!

Construction waste, sanitary items (such as toilets and sinks), porcelain and ceramics. impregnated wood and PVC must be taken to the local recycling centre.

Share your things before throwing them away. Post them in a **local Facebook group** – someone else might be able to use them!
